REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Frances F. Mack Primary School faculty and staff continue to work toward building an effective Professional Learning Community (PLC), with increased team planning and focused professional development opportunities. We targeted professional study by dividing staff into two groups, child development and five-year-old kindergarten staff and first and second grade staff. The two groups focused on different books of study related to needs of our student population.

Our district is working collaboratively to develop curriculum resources. Grade-level teams met to discuss and analyze the South Carolina Standards to build together a common scope and sequence to facilitate the development of extensive units of study.

We are continuing parent/community outreach with learning opportunities such as, 'Lunch & Learn', 'Books & Breakfast,' and 'Evening with Education'. Parent participation has increased in all of these activities. Surveys indicate that parents feel these programs have helped them to develop strategies to help students grow academically in the home environment.

Frances Mack will continue to offer the four-year-old kindergarten program to all qualified students. This program is funded through the Child Development Education Pilot Program (CDEPP). Data indicates tremendous gains resulting from this initiative. Students are provided a literature-rich environment and goals are set for each student based on their developmental needs. Teachers are able to provide students meaningful and effective experiences with literacy and math, as well as, social interactions.

This year, our school developed individual student assistance plans for students who were identified as below grade level. A detailed process to screen students to determine specific needs and to establish documented interventions was developed. These interventions were administered and monitored weekly. Grade-level teams met weekly with school administrators, coaches and the instructional interventionist to brainstorm ideas and strategies for each student. This process is called Response To Intervention (RTI) and includes a tiered approach toward student assistance. Parents were included and met with teachers to coordinate home/school strategies.

Our focus for this coming school year includes continued efforts toward data-driven instruction. We received a grant, School Improvement Fund (SIF), that will enable us to coordinate our efforts toward effective data collection and analysis, and thus enable us to effectively modify classroom instruction.

We will continue as a "Keeping Learning on Track" (KLT) pilot school. This program provides training for teacher leaders' resulting in a shared learning process that will benefit all students. The trained teachers will work with grade-level teams to modify instruction to meet individual student needs.

Our vision of the ABC's, building blocks for education—"All About Learning," "Being Successful," and "Caring Community" has worked well to provide clarity and focus for us as we continue to grow as a neighborhood of learners.
